

## CUSTOM GALLERY - CEILING/PENDANT

**PROJECT:** California Academy of Sciences Cafe  
Golden Gate Park  
San Francisco, CA

**ARCH:** SMWM/Lunberg Design  
**LT DES:** Auerbach Glasow French  
**SPEC NO:** 3D-2448 (2008)

These pendants involved collaboration with two architectural teams, the lighting designer and a glass blower. The hand blown glass globes encapsulate an incandescent source shrouded in wire mesh. This layering of the clear lamps gives a sparkel of brilliance to the space while at the same time providing ambient light.
