

CUSTOM GALLERY - CEILING/PENDANT

**PROJECT:**

100 Pine Street - San Francisco, CA

OWNER: Specified.**SPEC No:** 3D-2460 (1993)

This 6' X 6' direct/indirect pendant's design intent was to provide additional light to an otherwise gloomy exterior tiled plaza on the first floor of this 36 story downtown high-rise. Eight 39W TT lamps on two circuits allows for energy savings while transforming the area into an integrated part of the building.
