

CUSTOM GALLERY - CEILING/PENDANT

PROJECT: Verasa Resort 1 - Napa, CA
INT DES: CHIL
SPEC No: 3D-2231 (2008)

Occupying two spaces within this open lobby, the metal and acrylic pendants reflect the circular nature of the adjoining spaces. Mixing sizes and suspension heights adds to the informal quality of this project, while the use of incandescent G lamps allows for inexpensive dimming. The use of the outboard "seedy" clear shades reduces glare and adds volume to the fixtures.
