

CUSTOM GALLERY - WALL MOUNTED

PROJECT: Alameda Towne Center - Alameda, CA

ARCH: Field Paoli

LT DES: ALD, David Malman
(2006-2008)

Renovations to an aging shopping center have created a fresh new look and village feel. Working with the architect and lighting designer, Borden helped create a family of fixtures all using blue glass that result in a variety of decorative lighting solutions. All fixtures use CF lamping.
