

# LIGHTING FOR FITNESS CLUBS

**Project:** Bay Club Marin  
Corte Madera, CA

Fall  
2011

**Architect:** Form 4  
San Francisco, CA

**Interior Design:** ODA Design Associates  
San Francisco, CA

The existing facility was reconfigured to create a café on the lower level. These large pendant fixtures – the “Umbrella Fixtures” – provide a feature accent while at the same time providing soft ambient light. The fabric was installed in the field on the 8ft diameter metal frames. Simply lit with T8 lamps for energy saving and long lamp life. To meet the fire code, sprinkler heads terminate at the center of each fixture.
