

LIGHTING FOR HOUSES OF WORSHIP

720

M720

Project: Congregation Kol Shofar
Tiburon, CA

Architect: Herman Coliver Locus
San Francisco, CA

Summer
2011

Ltg Designer: ALD/David Malman
San Francisco, CA

This project involved a renovation and expansion of an existing synagogue. While the building is circular, the sanctuary is elliptical in shape as well as off-center. All new lighting, as well as skylights, were part of the renovations.

Borden Lighting fabricated the ring center fixture, which consists of dimmable MR16 lamps on stems. This fixture required close coordination for the supporting stems. We also provided the custom wall washers at the front of the sanctuary. In addition, Borden provided the exterior bollard fixtures and wall mounts.
