

LIGHTING FOR WINERIES

Project: Ram's Gate Winery
Sonoma, CA

Spring
2012

Architect: Backen Gillam Kroeger
San Francisco, CA

Interior Design: ODADA
San Francisco, CA

This new winery located at the entrance of the Sonoma Valley is a modern interpretation of the weathered farmsteads, in the area.

The project features dramatic lantern fixtures designed by Orlando Diaz-Azcuy which suit the mix of antiques and vintage designer items. The large lanterns are 36" x 96" and have medium and small companions. All feature seedy acrylic, flame lamps and special variegated powdered coat paint finish.
