

RE-LIGHTING MULTI-FAMILY

PROJECT: The Greenhouse Condominiums
Palo Alto, CA
LTG DESIGN: Koltai Lighting Design
Stanford, CA

October
2017

The condominium association wanted to upgrade the existing pedestrian lighting that consisted of globe post tops with retrofit CF lamps. These types of fixtures have a lot of uplight that is a glare issue for the units, especially the upper floors. Working with the lighting designer, Borden Lighting provided our 922 post top fixture, which provides a broad spread of low-glare indirect light.
