FABRIC FIXTURES

The warmth of fabric has become a part of architectural decorative lighting. Borden Lighting offers a family of surface mounted ceiling, pendant and wall mounted fixtures that offer fabric shades in robust specification grade products.

Fabric, like color, has endless possibilities. Our standard fabrics are a range of neutrals, but you can contact your rep or the factory for special fabrics. Where maintenance is of concern, we offer a washable polyester fabric that is made from 65% recycled material, as well as fixtures that use resin laminated fabric (101 and 501) that is also washable. The 303 is also available with this resin laminated fabric.

303-36 CREAM LINEN

303-36 CREAM LINEN

303-24 & 503 DOVE POLYESTER

103-18 & 503/4 DOVE POLYESTER

303-36 CREAM LINEN
