

BOLLARDS

Our family of bollard fixtures are related to our post top fixtures and/or our exterior wall mounted fixtures. Some bollards are available for direct burial or for base plate mounting. All bollards feature low glare downlighting or indirect light. The Trex post offered in the 918 is made from 95% recycled material and has a 25 year warranty. All the bollards feature robust construction, high quality materials and long lasting finishes. The 923 features a cast aluminum hood that is vandal resistant.
