

MEDALLION FIXTURES

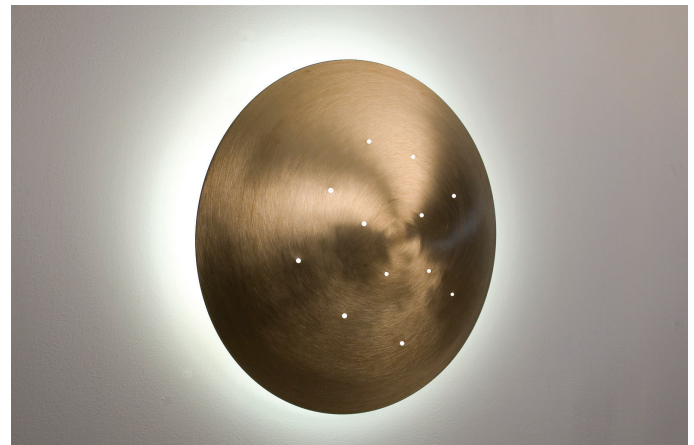

Our 716 fixture is an example of what we call a "medallion" fixture. The halo glow creates a wall mounted medallion that can vary in scale. It can also be an opportunity for a logo or other luminous graphic. The iconic shallow bowl design is a variation of our 316 pendant. The 716 is a wet location fixture, but the design can be done for damp and interior locations as well. Finishes can be painted or base metal aluminum, bronze and stainless steel.
