ECO INFO

METALS: Aluminum and brass with the highest available recycled content for lower embodied energy. Both metals are valuable and recyclable at the end of the product's useful life. For more information see "GENERAL INFO"

FINISHING: Aluminum and Antique Brass finishes are sealed with a hand-applied bees wax. No paint or lacquer is used in order to avoid pollution associated with the manufacture and application of these substances. Satin Brass is clear-coated with a very low VOC water-based coating. Paint finishes are low VOC and oven cured.

ENERGY: Designed exclusively for compact fluorescent lamps using HPF electronic ballasts.
